STAND UP FOR HUMAN RIGHTS!

8 billion people live on Earth.

Half of them are women.

One-fourth are young.

Three-fourths live in countries with decreasing democratic space.

There, freedom of speech, freedom of the press, and democratic institutions are in danger.

This year, the Universal Declaration of Human Rights by the United Nations turns 75. It must mean something.

Join us in the fight. Show that you STAND UP for human rights.

STAND UP FOR HUMAN RIGHTS!

Even if the World is getting better, it is important to remember that it doesn't happen on its own, but through people daring to STAND UP for their own and others' rights.

STAND UP FOR HUMAN RIGHTS

Today, the space for democracy is shrinking, which poses a threat to human rights and those who defend them. A vibrant and strong civil society that protects human rights is essential for democracy. It should never be taken for granted, not even in Sweden. We need more people to defend international cooperation, safeguard the most vulnerable, and protect people's fundamental rights.

The more of us there are, the more we can accomplish together. Join us and stand up for human rights!
