Diversity and inclusion are the foundation of a functional and sustainable society, yet significant challenges persist. These challenges are exacerbated by increased economic disparities, social exclusion and cultural polarization. Leave No One Behind is a principal for the Global Goals and is especially highlighted in Goal 10; reduce inequality within and among countries. The principal underscores the importance of working toward a world where everyone is included in development. We all have an important role to play to ensure that no one is left behind and is treated equally, regardless of their background. It starts with you. Let us be courageous together. Get involved and influence your school and community to create a more inclusive society. Leave no one behind!
